**SUMMARY:** Skilled project coordinator with excellent communication skills and over 8 years experience in live production, graphic design, and web marketing.

**EDUCATION:** **UNIVERSITY OF MASSACHUSETTS**, Amherst, MA  
Graduated with Bachelor of Arts, Spring 2003  
Major: Communication      Minor: Film/Production

**EXPERIENCE:** → 2 years as the head of Creative Development at a new media startup focused on interactive, streaming web broadcasts. During my time there, I was responsible for everything from conceptualizing new online elements, to managing our live production crew both in studio & on location. I was also in charge of personally handling relationships with clients such as Sony Pictures & NBC/Universal, to create more effective web marketing of our webcasts for their premieres (*Hellboy*, *Hancock*, *Wanted*, etc).

→ 3 years as the Studio Director at NBC in Massachusetts, where I became adept & familiar with almost every aspect of studio production. My main tasks were to direct and switch live newscasts on air, and create all over-the-shoulder and full-screen animated graphics in my down time. Outside the control room, I ran tapes, coordinated rundowns with producers, edited stories, changed lighting, operated studio and jib cameras, managed talent, and even tuned in microwave/satellite feeds.

**EMPLOYMENT:** **NowMedia Corporation** *October '06 – Nov '08*  
23945 Calabasas Rd., Calabasas, CA 91302      Position: Director of  
(818) 207-4334 / Suite #109      Creative Development  
Company CEO: Kevin Bromber

**WWLP-TV Channel 22 (NBC)** *September '03 – Aug '06*  
**One Broadcast Ctr., Chicopee, MA 01013**      Position: Director  
(413) 377-2200  
Station Manager: John Baran

**SKILLS:** Mac & PC proficient, with a particularly strong understanding of all Adobe Creative Suite (Photoshop, Illustrator, Premiere, After FX, etc ) & Microsoft Office products. Online, I'm adept at HTML, CSS & JavaScript, and have maintained my websites through many VPN/FTP secure clients. For hands on production, I've worked with a wide-range of consumer to pro HD/DV cameras, created standard audio/lighting setups, and used many other pieces of broadcast equipment & software (TriCaster boxes, 4FX row Philips Diamond 30 switcher, Dveous DVE, Pinnacle FXDeko, Inca CG, Lightning still store, Avid & FCP).
